

Fund Accounting

The only true general ledger solution that's built specifically for the needs of the private capital markets

A solution that's a step above

As the private capital industry has grown, GPs' needs have evolved. Their fund accounting software should too.

Allvue Systems' Fund Accounting platform combines partnership accounting, detailed financial statement reporting, a multi-currency general ledger, cash management, and workflow standardization for one complete system.

- Streamline workflows** across the organization by automating complex processes like carried interest waterfall calculations and more.

- Reduce risk** and increase efficiencies by integrating your fund's books and records with your management company accounting or your debt sub ledger.

- Easily share information** via comprehensive, intuitive reporting that you and your investors can securely access wherever, whenever.

Features

Provides a multi-currency general ledger with a robust library of financial reports and a flexible report writer for custom output

Automates complex manual processes, including carried interest waterfall calculation, equity pickups, bifurcating FX from investment gain/loss, transfer of partnership interest, debt interest accruals, and more

Seamlessly integrates into your corporate accounting system for A/R, A/P, check writing, and cash management

Leverages a cloud-based architecture built on top of Microsoft Dynamics NAV, a robust accounting platform focused on ease of use and configurability, allowing for native integration with Microsoft Excel and Word for ad hoc analysis

Provides a consistent record of all investment decisions across your business

Benefits

Streamline workflows across the organization by implementing standards and procedures for consistency

Increase efficiencies and reduce risk by leveraging a complete front-to-back platform to support activities across the firm

Leverage next generation technology, built on Microsoft's enterprise framework, that ensures your core GL technology will continue as the leading solution for years to come

Simplify your tech stack by leveraging one solution that's capable of handling every type of capital allocation, partnership structure, and investment security (both debt and equity)

Configure across business process, reports and allocation methods
